

ISO50001: 2011 Energy Management System Implementation Course

Course Summary

In today's world, businesses need to strike the balance between operational efficiency and energy efficient sustainable development. With soaring energy prices and increased scarcity of natural resources, pinpointing energy efficiencies - from planning to manufacturing to operations - makes good business sense.

21 SCEM PDU points awarded

Course Objectives

This workshop aims to equip participants with the insight into the standard of the ISO 50001:2011 and how to implement the standard in the organisation to have an effective Energy Management System and to improve energy performance.

Target Audience

Management Representatives, Facilities/Energy Managers, Executives and Supervisors and personnel responsible for implementing and maintaining an Energy Management System

25 - 27 June 2018

9am - 5pm

Singapore Sustainability Academy
