

Sustainable Energy Association of Singapore

# UNDERSTANDING BLOCKCHAIN TECHNOLOGY IN ENERGY

## *Breakfast Talk*

### Mathias Steck

Executive Vice President &  
Regional Manager  
DNV GL - Digital Solutions

Date: 26 September 2018, Wednesday

Time: 8:00AM - 10:30AM

Venue: SEAS

- Blockchain is a game changing technology that has the potential to dramatically change the way transactions are conducted over the Internet.
- The breakfast talk will introduce the fundamental concepts of Blockchain, the technology, its revolutionary potential, and an in-depth look at its application within the Energy Industry and its potential for disruption.
