

FINANCING OF RENEWABLE ENERGY

COURSE OVERVIEW

As a highly-urbanised city-state with limited natural resources, sustainability is synonymous with Singapore. The city-state is noted for placing sustainability at the core of its government policies over the decades while enabling a growing economy. Renewable energy's potential in the region is tremendous and the industry is merely at the beginning of its growth.

COURSE OBJECTIVES

This workshop aims to provide participants with a broad overview of the renewable energy in South East Asia, with a particular focus on business models and financing.

One of the main limitations to rapid growth of the sector is access to financing and project bankability. The workshop will covers topics related to optimisationg funding structures and financing considerations.

With both private and public sector exposure in renewable energy, the speaker will share his experience with setting up and running a renewable energy platform, as well as thoughts on government's policies and opportunities in the region.

Room TBA

FINANCING OF RENEWABLE ENERGY

PROGRAMME OUTLINE

Session 1: Introduction to Renewable Energy Landscape

- Introduction to current state of affairs, regional potential, institutions, developmental opportunities and considerations

Session 2: Renewable Energy as a Business

- Running a RE business, common business models, strategies & structures
- Investment characteristics of renewable energy assets
- Key players in driving the Clean Energy Market

Session 3: Funding a Renewable Energy Portfolio: Case studies of successful and less successful RE projects

- Exploring different sources of financing and their implications
- Optimising structure of RE financing
- Case study of regional RE platform

Session 4: Project Bankability

- Developing a bankable RE project
- Expanding beyond RE

ABOUT THE SPEAKER

Mr. Jonathan Chong is a seasoned Cleantech professional who has over 7 years of both private and public sector experience in the solar industry in Southeast Asia.

Jonathan was the Chief Financial Officer at LYS Energy, a regional solar IPP. He oversaw LYS Energy's corporate finance, corporate strategy and investor relations, as well as developed over 10MWp of rooftop solar in the region, executing complex projects with clients such as Rolls Royce, DHL and Heineken.

Prior to joining LYS, Jonathan spent four years in the Singapore government. He was a core member of the Singapore Economic Development Board (EDB) Cleantech team that drove the development of the renewable energy sector in Singapore. During his time at EDB, Jonathan successfully negotiated and structured significant foreign solar investments in Singapore and worked on increasing solar adoption in Singapore. Jonathan also spent a year in the Regional Development Team of the Monetary Authority of Singapore (MAS).

Jonathan holds a Bachelor's degree in Government and Economics from the London School of Economics and Political Science, and a Master's degree in Management Science and Engineering from Stanford University.
