

Networking for HR Professionals

SEAS is an industry association with more than 220 members, and is a common platform for companies to connect, collaborate and create new opportunities and projects. As part of our mission we also provide capacity building and have so far trained 12,000 industry professionals across the area of sustainable energy.

In this unique new initiative, we are organising a networking & learning session for HR professionals to learn about future economy topics like sustainability & digitisation that will play an important role in growth of companies.

Talent Sourcing for a Sustainable mindset in the Digital world

As businesses continue to be disrupted by technology, driving a digital mindset within all levels of the organisation is key; and it is crucial to start at the recruitment stage for both Digital Immigrants (born before digital era) & Digital Natives (born after digital era)

Sustainability Reporting

- The benefits of sustainability, why produce a sustainability report?
- Reporting requirements - overview of SGX, GRI requirements, HR reporting expectations
- Case study - what local companies are doing on HR disclosure
