

# RENEWABLE ENERGY FINANCING

## COURSE OVERVIEW

The Renewable Energy Finance Workshop is a 5 day program for policy makers to learn and share the problem statement from their respective countries. This will also be an opportunity for policy makers to learn about latest and appropriate technologies as well as financing mechanisms & business models that are effective in other countries. As part of the course, participants will be able to attend the Asia Clean Energy Summit.

## COURSE OBJECTIVES

- Learn how to stimulate private sector investment in the clean energy sector
- Familiarise the policy makers with how the policy framework impacts the flow of private capital into renewable energy projects
- Reinforce the expectations of investors regarding various risk factors in the country including certainty of policy implementation, government support and commitment.

## TARGET AUDIENCE

Policy makers or professionals from the renewable energy industry

## ABOUT THE SUSTAINABLE ENERGY CENTRE OF EXCELLENCE (SECOE)

Based in Singapore, SECOE will conduct seminars, workshops and sharing sessions for up to 150 policy-makers from ADB's 46 developing member countries a year. SECOE is the first training centre of its kind to build capabilities, drive partnerships and bring key decision makers together under a structured programme in the field of clean and renewable energy. The Singapore government represented by IE Singapore, is a supporting partner for SECOE and welcomes the collaboration between officials from the region and industry.
