Clean Energy & Sustainable Development Industry Business Networking Series

Date: **Thurs, 12 August 10** Time: **7pm – 9pm**

Venue: **Brewerkz (Riverside Point)**

* Fee per pax (incl 7% GST): **\$42 (SBF/ECO/SC/SEAS Member) \$63 (Non Member)**

*** Inclusive of 2 Pints of beer/ soft drinks + free flow of finger food**

Program Outline - The Clean Energy and Sustainable Development Industry worldwide is experiencing robust global growth due to rising energy demand, climate change concerns and technological advances. This industry networking session by SBF Sustainable Development Business Group (SDBG) is organized on a bi-monthly basis to help build up the community of companies and professionals from the industry. Each session features a short keynote by a leading speaker around a different theme related to the clean energy and sustainable development industry. Participants can expect easy interaction, networking, learning and experience sharing as well as business matching opportunities in an informal ambience.

Clean Energy and Sustainable Development Ecosystem - The clean energy and sustainable development industry is cross sectoral and spans various industry verticals and functional areas - chemical, energy and utilities, environmental management and waste recycling, renewable energy, energy efficiency (across manufacturing, transport/logistics, building & real estate), green IT/computing as well as clean energy VCs and financing, project management and consultancy, government agencies, academic and research institutes, energy audit professionals, etc.

Target Audience – Members of SBF, ECO Singapore, SC and SEAS members, as well as business and industry professionals in clean energy and sustainable development industry.

About the Speaker - Tom Haynes, Managing Director, Create Innovations Pte Ltd

Tom is a passionate advocate for sustainable development, and is a founding director of Create Innovation Pty Ltd from Australia. He has a diverse range of experience in the field of sustainability in technical, academic, management and leadership roles.

Tom began his architectural career with several leading Australian architectural firms including Denton Corker & Marshall. He worked as a sustainability consultant on a range of major built environment projects including Sustainable Built Environments Pty Ltd. For six years Tom was also Head of Research at a leading organisation undertaking R&D into the Business Case for Sustainability (WBa Research). In this role he helped secure funding for over \$3.5 million from in-kind, cash and grants from AusIndustry, the Australian Research Council and the Victorian Government grants.

Tom's strengths include lateral thinking, global networking, design innovation and holistic systems. He has developed the Brain Stampede system which is a unique approach to organise a highly integrated approach to the Business Case for Sustainability.

Tom has conducted workshops and addressed major environmental and design conferences internationally on achieving sustainability through innovation. He was a speaker at the recent Housing Development Board's 50th Anniversary Conference "Sustainable Housing Charting New Frontiers" and also Terrapinn's Green Building Asia.
