

INDONESIA Solar + Building expo

Your personal invitation to
**Join the
Singapore
Pavilion**

14 - 16 August 2014
Jakarta International Expo, Kemayoran

Highlights:

4-in-1 Show (Indonesia Intelligent Building + Automation, Building Mechanical & Material, HVACR & Energy Efficiency, Light & Building)

A leading industry platform focusing on the areas of photovoltaics, PV production technologies, energy storage and solar thermal technologies in the region.

Indonesia Sustainable and Energy Efficient Building Conference 2014

1500 Trade Visitors and Access to hundreds Innovation of latest products, services, solutions, and technologies from international key industry players all under one roof.

Up to 50% Reimbursement for Booth Rental, Setup and Business Development Support

Singapore Pavilion
Organized by:

Supported by:

Indonesia's Premier Exhibition for Solar Power and Energy Efficiency

The Sustainable Energy Association of Singapore (SEAS), with support from SPRING Singapore and IE Singapore, is leading a Trade Mission to setup a Singapore Pavilion at the Indonesia Solar + Building Expo. The show will be held from 14 — 16 August 2014 at the Jakarta International Trade Expo.

Opportunities present for technology providers and investors in Indonesia:

Solar

The Government of Indonesia targets to provide 17% of total energy use from renewable energy sources by 2025.

An estimated 60 million people in Indonesia currently lack access to electricity.

The government of Indonesia is tendering as many as 80 projects related to the development of solar power plants, totaling up to 140 MW.

State-owned financing facilities such as PT Sarana Multi Infrastruktur have been setup to support investments into clean energy infrastructure projects.

Energy Efficiency

The Government targets to reduce energy intensity of Indonesia by 11% by 2025.

Energy consumption in Indonesia is expected to rise by over 7% year-on-year leading to 2030.

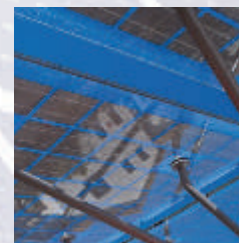

The Asian Development Bank (ADB) and the World Bank have committed \$1.1 billion for EE projects.

Local ESCOs and energy centres require technical expertise and technologies to support EE project developments.

Currently the investment potentials for Energy Efficiency investments in commercial buildings in Indonesia is value at over USD\$500m, and over USD\$800m for industries.

HIGHLIGHTS of INDONESIA SOLAR + BUILDING EXPO 2014

- Total 3,000 sqm of exhibition space
- Supported by Ministry of Energy & Mineral Resources of Indonesia, Indonesia Solar Module Producers Association, Green Building Council Indonesia (GBCI), Ashrae Indonesia Chapter, etc. supporting bodies
- Up to 50% Reimbursement for Booth Rental, Setup and Business Development Support

Exhibitor Incentives:

Reimbursement under LEAD Grant

- Up to 50% of booth rental and setup, 3rd party consulting for business development, industry networking events (if applicable), and secretarial supportive services.
