

## World Cities Summit 2010

Liveable & Sustainable Cities for the Future  
28 Jun - 1 Jul 2010 **SINGAPORE**

WORLD CITIES SUMMIT

### Mark Your Calendar for the Most Important Urban Event of the Year!

World Cities Summit (WCS) 2010, to be held from 28 June – 1 July in Singapore, presents you with a unique opportunity to **meet global city leaders, heads of international organizations and industry experts** to gain exclusive insight to address issues of growth, liveability and sustainability for cities today.

Ministers and mayors from the United States, Europe and Asia are some of the 1000 delegates attending the Summit.

Be part of the Summit to acquire new knowledge, meet investors and secure major urban projects for your cities and commercial developments.

### Discover New Strategies in Urban Planning & Development

WCS brings together the world's leading thought leaders and industry professionals to share their strategic wisdom in **12 action-packed Expert Panel Sessions** to explore the full gamut of issues around urbanization, from urban planning, infrastructure financing, public housing, built environment, waste management, climate change and urban biodiversity.

Take part in any of these sessions, grouped under six concurrent tracks namely:

- "Planning for a World-Class City"
- "Maintaining a Competitive Economy"
- "Shaping a Liveable Environment"
- "Working Towards Environmentally Sustainable Cities "
- "Balancing Resource Conflicts and Competing Demands"
- "Enhancing Cities' Biodiversity "

### Sign up for site visits for a fruitful learning experience

Hosted by diverse public sector agencies in Singapore, the Learning Journeys will give a behind-the-scenes look at specific projects while providing unique, practical learning experiences for delegates.

Enjoy the stunning bird's eye view of Marina Bay – an urban redevelopment project, by riding on the 165m-high Singapore Flyer. Visit the Housing Development Board Gallery to be brought on the Singapore's public housing journey from slums to vibrant towns and join the guided tour of Chek Jawa Wetlands to learn how the national parks authority preserves the fragile ecology.

The Learning Journeys will be held on 28 June and 1 July 2010.

- The Built Environment Journey
- The City Planning Journey
- The Marine Aquaculture Journey
- The Public Housing Journey
- The Urban Conservation Journey
- The Waste and Resource Management Journey
