

Rooftop Solar Solution for Seo Eng Joo Frozen Food Pte Ltd

Seo Eng Joo Frozen Food Pte Ltd (SEJ) is an established food manufacturing company in Singapore with over 60 years of history. SEJ partnered Sembcorp Solar to develop a 775 kWp solar rooftop system which helps SEJ to reduce their electricity cost. Being a cold chain management company, energy consumption can be very high and costly.

Sembcorp Solar provided the solution of distributing solar-generated energy across two switchboards through smart and effective engineering design to maximise their solar energy use.

Our Solution

Sembcorp's Solar PV System is backed by a centralised digital platform that remotely monitors data of Sembcorp's fleet of solar systems in Southeast Asia in real-time, enabling the operations and maintenance team to have enhanced visibility for swift deployment to specific sites when needed.

System Information

Location	5 Buroh Lane
System Size	775 kWp
Completion Date	9 November 2018

Green Benefits
